

## **Minutes From Conference Call - 5/31/00**

Gina Ziegenbein provided a status on the software for Federal RPM which follows:

- DOC procured the software which was delivered on 5/10/00.
- The week of 5/15/00, design papers for minimum enhancements to the system were developed.
- The basic software unenhanced has been loaded on the DOC computer in Springfield, VA and software acceptance testing is currently underway.
- Discussed Regional boundaries for NMFS and NOS to be implemented in the new system.
- Plan to conduct user training for ASC and Line Office Headquarters staff will be September 13-14, and a possible session may be held on October 11-12 for anyone not able to attend the first session.
